

MOORING WHIPS

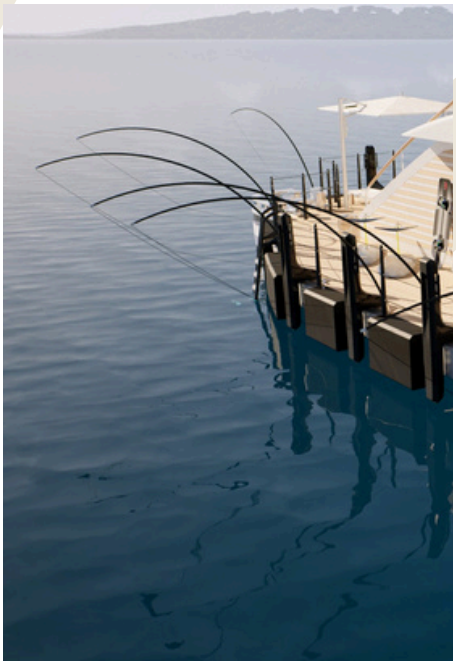

A RELIABLE SOLUTION

Tec Wire's Mooring Whips provide a reliable solution for keeping tenders and jetski's safely positioned.

Consisting of a reinforced carbon fibre pole and stainless steel clamp, they offer exceptional strength while being light in weight for practical (dis)assembling.

Available in various lengths and installable on different locations onboard, these Whips complement any mooring arrangement.

- Available in different lengths and finishes to suit any requirements
- Including a protective bag for easy storage
- Various configurations possible, including a divisible system
- Made for your tender operations
